ARGENIX

L-Arginine (5000 mg/5gm): a non-essential amino acid that has shown a reversing effects on atherosclerosis. A pre-cursor for endothelium derived nitric acid (EDNO) a vasodilator. Nitric acid helps vessels become pliable, more elastic, prevents oxidation, slows plaque development and slows atherosclerosis. EDNO has a dramatic effect on cardiovascular health. This helps lower cholesterol and triglycerides, improves diabetes, increases human growth hormone, reduced blood clots, improves heart function, improves wound healing, improves memory, kidney function, muscle growth, improves male and female sexual organs function, depression and over all body performance and endurance.

Over 50,000 medically published clinical tests dating back over 30 years have proven that arginine converts to nitric oxide in our blood vessels and increased nitric oxide will help:

Lower Blood Pressure - *Lancet* 1990

Improve Diabetes - *Diabetes Care* 2001

Reduce Blood Clots & Strokes - *Circulation* 2001

Improve Heart Failure - *J Am Coll Cardiol* 2000

Improve Memory - *J Physiol Pharmacol* 1999

Increase Muscle Growth & Performance - *Med Sci Sports Excer* 2000

Lower Cholesterol - *J Nutr* 1996

Improve Sexual Function - *BJU Int* 1999

Improve Wound Healing - *Surgery* 1993

Improve Kidney Function - *Kidney Intl* 1999

L-Citrulline (200 mg): promote energy, stimulates the immune system, is converted into L-Arginine and also increases nitric acid development.

OPC (150 mg): pine bark extract (Pycnogenol) and grape seed extract have powerful antioxidant capabilities. May be more potent than Vitamin C and Vitamin E in antioxidant activity. Used for strengthening and repair of connective tissue (blood vessel valves). Moderates allergic and inflammatory responses by reducing histamine production and neutralizes free radicals.

Polyphenols (25mg): antioxidants, changes the properties of blood lipids to make them less sticky. Thus reducing cholesterol build-up and helping to eliminate fat from the blood.

Proprietary blend of the following:

Fulvic Minerals: phytochemicals, biochemical's, antioxidants, free-radical scavengers, super oxide dismutases, enzymes, hormones, amino acids, antibiotics, antiviral, and antifungal arsenal derived from plant deposits of 75 million years ago. Restores electrical balance to damaged cells, neutralizes toxins, improves energy function, increases assimilation, stimulates metabolism, restores electrochemical balance, reduces high blood pressure and helps rebuild immune system.

Be Flora: prebiotic fiber blend containing dietary fiber, soy extract and glycolate (potato starch). Helps to create beneficial intestinal bacteria, assists the immune system, reduces free radicals, help provide B vitamin production, improves calcium absorption, helps balance lipid and cholesterol metabolism and helps produce beneficial enzymes.

Citric Acid: (not Vitamin C-Ascorbic Acid) organic acid found in pineapples, gooseberries, limes, lemons, oranges and grapefruit.

Potassium Sorbate: polyunsaturated fatty acid salt which inhibits, mold, yeast and fungus.

Potassium Benzoate: antimicrobial natural food preservative.

Centre price: \$60.00 per bottle (1 month supply). Prices valid till 06/01/08.

You can buy at wholesale cost + S/H (about \$47.00) at www.greathealth-tour.com/drben.
