The Global Wellness Machine - A focused specific EMF Machine
An electric Antibiotic/ Anti-parasite/ Cellular stimulation machine

Disclaimer: This machine and the many conditions it effects have not been completely evaluated and approved by the U.S. Food and Drug Administration as a "medical" device for "curing or treating diagnosed" diseases, so we can not represent that this therapy "cures or treats" any specific "medical" disease or condition. This is due to lack of published double blind studies, the pharmaceutical companies' pressure against it, the AMA blockage of doctors use and investigation and bias doctors who have placed self interest above alternative drug options. The Global Wellness machine has been determined safe by the "FDA".

This technology is based on the pioneering research of Dr. Royal Raymond Rife of the 1930's, He is credited in the book, "The Cancer Cure That Worked", as the man who discovered a very inexpensive treatment for cancer and many other diseases conditions, simply by using vibrational electromagnetic pulsed energy. This machine was the for-runner of today's electro-medicine devices (ultra-sound, microwave, diathermy, cold laser, infrared and inferential therapy).

Rife discovered that virus's, bacterium, parasites, fungus and other pathogens were particularly sensitive to a specific "frequency" of electromagnetic pulsed energy. These microbes would be killed by intensifying that frequency until it literally exploded the cell walls - like a specific intense musical note that can shatter a wine glass! This electro-magnetic intense frequency damages the microbe's cell walls, cellular function and its reproductive ability, thus making it more vulnerable to the bodies' immune system and other intervention.

Cell wall ruptured by focused specific EMF.

Every species of life has its own electromagnetic "signature", (a pattern of DNA and RNA that creates the building blocks and builds the cell) based on its individual genetic blueprint. The basis of Rife's machine is this unique electromagnetic "signature" of Viruses, Bacteria, Parasites, Fungi and Cancer; and the frequencies that destroy them.

The Global Wellness circuitry produces all known bio-active frequencies. This instrument (a frequency generator), contains 450 preprogrammed frequencies and 550 Auto Codes in the memory. An Auto Code remembers up to 32 different frequencies, designed for a specific group of virus's, bacteria, fungus and parasites along with other conditions.

The Global Wellness produces a square wave, with the quality of the energy pattern determining the effectiveness of use. The wave pattern is consistently well shaped even under the resistive load of the human body. The electronic circuits were designed to match the impedance of the square wave to the impedance of the human body. This allows the energy to produce the maximum effect when it enters the body without harming the body. The frequency range extends from 5 Hz to 10,000 Hz.

At any given power level this machine will provide a substantially higher mortality rate to harmful organism than any other instrument that is not impedance matched. This instrument has consistently outperformed all the others on the market.

Global wellness cont.

The programming is accurate and inclusive for over 500 conditions. The specific list of frequencies used, have been shown to be as safe and effective today as when Royal Rife and John Crane began using them in the 1950's.

The Global Wellness machine - This machine specifically creates electrical frequencies that effect non-human tissue. These particular frequencies, disrupts and damages non-human cell matrixes and walls, thus allowing the normal immune system and other intervention time to catch up and deal with them. The machine generates multiple and different electrical currents, field frequencies, intensities and durations. Many users have received benefits with Asthma, Allergies, Headaches, Chronic Pain, Muscle Cramps, Arthritis, Parasites, Deep Bone Pain, Bronchitis, Hepatitis, Candida, Chronic Fatigue Syndrome, Depression, Diabetes, Fibromyalgia, Hot flashes, hearing problems, hemorrhoids, Impotence, Insomnia, Irritable Bowel Syndrome, Liver problems, Lyme's disease, Multiple Sclerosis, Muscular Dystrophy, Skin problems, Stomach disorders, Surgical infections, Yeast infections, Herpes, Arthritis, Cardiovascular problems, Back problems, and over 525 conditions. Normal treatment time lasts about 25-30 minutes. The session duration, number of and intensity of frequencies used and number of sessions depends on the duration and intensity of the condition's and the individuals ability to handle the changes. Most people will see good results with 1-2 sessions/week over 6-12 weeks (average 12-24 sessions). Many programs are individualized per patient conditions and choices. At the Centre, we mainly use it for killing microbes and thus assist the immune system in its battle to protect the normal healthy cells.

Bio-active frequencies are safe to use because each bio-active frequency affects only one type of organism and is harmless to anything with a different genetic code. Since every variety of organisms has a different genetic code, every organism requires a different frequency. Using the "wrong" frequency on an organism naturally would have no effect on it. So it is important to use all the frequencies listed in relationship to that particular organism. Unlike antibiotics, which kill good and bad microbes, the Rife frequencies are harmless to humans normal cells and good microbes. (We also recommend the use of the Ion Cleanse to remove toxic metals, waste products and dead microbes).

Channels 1-28 are microbial (virus's, bacteria, fungus) (auto 560) and affect more problems of the body than all other frequencies combined. (This sequence is the one we will usually start with at one minute intervals per frequency for the first 12 sessions. Then we set the machine for more intensity and duration to your particular conditions.) Channels 29, 41, 42, 45, 48, 58, 61, 71, 86, 87, 88 and 105 are primarily for parasites, amoebae and detox. A slight tingling sensation in the contact points indicates that the power is sufficient to do the job.

For contact with the body, conductivity lotions are used for maximum results. This therapy is not used to replace your current medical treatment, but is being used to complement your care and help detox your body. This machine electrically destroys the cell walls of microbes (fungus, bacteria, and virus) and parasites (an electric targeted antibiotic) without harming the normal healthy body cells.

After we use the Global Wellness machine, we need to remove any toxic build-up to avoid a "healing crisis", where you may have a temporary increase in symptoms. You also need to drink plenty of clean water. Detoxification aids in speeding recovery. Detoxification accelerates the elimination of toxins released by dead microbes. (See the "detox" handout.) Early detection of poor hydration is: sluggishness, headaches, fatigue, yellowish skin, pain, swelling or return of symptoms. Drink lots of water for 48 hours after the Global Wellness machine has been used (at least 1/3rd your body weight in ounces).

Many microbes go through different stages in their development, so many frequencies maybe used and the sessions must be repeated at least 12 times to get past the "no symptom" stage. We recommend 1-2 sessions per week.

Global wellness cont.

To help rebuild vitality, a diet of fresh raw fruits and vegetables, sunlight, clean water and good stimulating physical exercises is very helpful. We also recommend a good ionic organic supplement to help the body repair and heal from any microbial damage.

We recommend a minimum beginning series of 12 session (2 session/week for 6 weeks), at the 560 setting (kills 28 different microbes) to kill the microbes at different stages of their life cycle. The Global wellness machine is used along with a parasite /intestinal cleanse/ heavy metal removal supplement, a general body organic ionic supplement and the ionic cleanse (foot bath), to remove unwanted microbes, heavy metals and help the body heal. We can treat up to 2 times per week with at least 72 hours between each treatment. Most patient will treat at a once a week interval. After the first 12 sessions at 560 setting (28 microbes), the machine can then be set on particular condition sequence.

Cost: \$5 administration/staff set-up fee, plus \$25 for every 30 minute session, with Oxygen Bar.

(Pre-pay: 10 sessions - \$300, receive 2 free (\$60) 12 total (Drops cost to \$25 each),

(Pre-pay 18 sessions - \$540, receive 6 free (\$180) 24 total (Drops cost to \$22.50 each).

The following items are also helpful:

- Mild hyperbaric chamber - used to help neutralize toxins, increase detoxification rate, increase healing and repair of cellular damage and add oxygen to all the cells of the body.
- Massage therapy - to increase circulation and removal of toxins.
- Sauna - to help the body increase circulation, oxygenation and movements of toxins out of the body.
- A good liquid vitamin, mineral and other supplements - basic material for healing.
- Fitness training - to re-develop damaged areas.
- IntraMAX - 415 organic ionic ingredients at 1 ounce per day.
- EDTA/Heavy Metal Detox used to block toxic metals,
- 201/202 detox and parasite removal of the intestines,
- Colon Hydrotherapy to remove waste material and toxic build up in the large intestines,
- Ion cleanse used to remove toxins in the interstitial body.
